Advanced Electrochemical  
Oxidation for Water Reuse

## 1<sup>st</sup> International Workshop on Advanced Electrochemical Oxidation for Water Reuse

# PARTNERSHIP FOR ELO.WatR

Discover our partnership offers for the  
International Workshop ELO.WatR 2020

[elowatr.sciencesconf.org](http://elowatr.sciencesconf.org)

The “Advanced Electrochemical Oxidation for Water Reuse” (ELO.WatR) international workshop will take place from September 15<sup>th</sup> to 17<sup>th</sup>, 2020. Due to the situation with the COVID 19, the workshop will take the exclusive form of a live virtual conference. ELO.WatR will be the perfect e-conference to gather scientists and industrial partners from all around the world to share cutting-edge knowledge, research and technologies in the exciting field of electrochemical advanced oxidation, with the final ambition to promote the development of those electrochemical technologies for challenging applications in water and wastewater treatment and reuse.

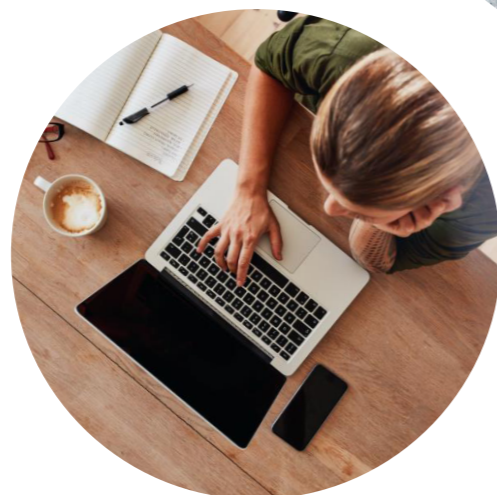

With the virtual conference ELO.WatR, your company will benefit from an excellent visibility during all the online workshop.

Being the partner of ELO.WatR 2020 will help you to reach your target with an international e-format. We anticipate over 60 participants, industrial and academics, coming from all over the world.

Find below the new sponsoring file, do not hesitate to browse our document.

We are at your disposal to answer your questions.

Organizing committee of ELO.WatR 2020:  
Emmanuel Mousset, Marie-Noëlle Pons, François Lopicque  
CNRS, Université de Lorraine, France

## EXHIBITION

### Capture the attention

For those who wish to benefit from maximum visibility, we suggest two options:

Visibility package	Basic	Premium
